

Disastrous Fire Sweeps Ranch Lands

The big wind of Thursday last which proved so disastrous in the Cochrane district, did but little damage in the Didsbury district. Beyond a few telephone poles being blown down, the consequences mostly were the disagreeable clouds of dust.

West of Calgary however, fire was added to the 60-mile-an-hour gale and it is reported to have raged for 36 miles over a 6 mile strip.

Five families at least have lost livestock, furniture, clothing, utensils—everything. Thousands of dollars' worth of valuable feed went up in flames as the fire swept along the south side of the Bow River east to 12 Mile Coulee and then south-west to the Stony Indian Reserve.

Some 2000 head of cattle on the range were endangered, but later reports developed that losses in cattle were not high.

Rain on Thursday evening relieved the 200 volunteers who had been fighting the fire.

Funds for the fire-stricken people have been raised in Calgary and five 3-roomed houses, constructed so that they can be enlarged later, will be built immediately to replace the lost buildings, and a truckload of clothing and provisions were sent to Cochrane on Monday.

Several carloads of feed have been sent into the district by the provincial government, and the Western Livestock Association is also rendering assistance to the stricken farmers.

The fire burned poles on the three main power lines and disrupted the electric service in Calgary for several hours.

Tax Discount.

Monday, November 30th is the last day that discount will be allowed on current town and school taxes. Pay your taxes before that date and receive 5 per cent discount.

E. P. Foster, M.L.A. Meets Business Men

E. P. Foster, Social Credit member for this constituency, met with a number of business men Monday afternoon to discuss Prosperity certificates. He suggested that in order to help make the issue of prosperity certificates a success, the merchants should purchase a quantity of prosperity certificates from the government and put them into circulation in the district.

The question of the proposed highway which has been surveyed east of town came up for discussion. Mr. Foster promised to use his influence in the provincial House to continue the highway through or near the towns of Carstairs, Didsbury and Olds, if he found that the majority of the citizens wished the highway to follow the present route. He stated that the survey which had been made was to find out if the plan was feasible and to obtain some knowledge of the cost of such a change, but he did not think that any change was contemplated by the department for some time.

At the Movies.

"Green Pastures," declared to be "America's best loved play," which earned a continuous run for five years, has been brought to the screen and will be shown at the Opera House this weekend.

It is said to be the most pretentious play ever attempted and was filmed in a lavish manner. There are 120 beautiful scenic settings, some of them of gigantic proportions such as a sunlight glade in which 800 characters attend a celestial fish fry.

It is a negro conception of the story of creation, with the subsequent sins of mankind on earth and the glory of Heaven. It is a great play and you will want to see it.

Next week the attraction will be "China Seas," with Clark Gable, Jean Harlow and Wallace Beery in the leading roles.

Firing through a window, Roy Robson, 40, shot his wife at Gem, about 100 miles east of Calgary, on Friday night about 7 o'clock and then proceeded to a neighbor's home a mile away and shot himself, according to police. Both Robson and his wife died instantaneously. Mrs. Robson, 38, was employed as house-keeper at the home of F. Williamson, well-known Gem farmer. She was cooking the evening meal when her husband fired through the window with a rifle. She fell to the floor and was found dead by inmates of the Williamson home attracted to the kitchen by the shot. Immediately after shooting his wife, Robson proceeded to the home of A. P. Millar a mile distant from the Williamson home. He opened the back door, wrote a note and then shot himself.

Didsbury Rinks Limited NOTICE

The Annual Meeting of Shareholders of Didsbury Rinks Limited will be held at the office of A. C. Fisher on Friday, December 4th, 1936, at 8 p.m.

A. C. Fisher, Sec.-Treas.
H. W. Chambers, President.

Open Wednesdays During December

All Stores and Business Houses will be open Wednesday afternoons during December.

Municipalities Will Meet Government.

Mr. W. A. Austin, town secretary, left Wednesday morning for Edmonton as a member of the committee from the Alberta Union of Municipalities entrusted with the task of presenting a number of resolutions to the government.

The committee will meet Premier Aberhart and the cabinet on Thursday.

The other members of the committee from the southern part of the province are Mayor Davison, Calgary, Mayor Elkton and Alderman Smeaton, of Lethbridge.

Municipalities Ask For Co-operation

Non-appearance of certain provincial government ministers scheduled to address delegates to the Alberta Association of Municipal Districts convention held in Calgary last week roused indignation which was given expression to in a resolution passed Friday afternoon at the closing session in the Palliser Hotel. The resolution read as follows:

"Whereas, the public of this province has from time to time been severely criticized by our provincial government for lack of co-operation, therefore be it resolved that our government be requested to more closely co-operate with this Association by having their ministers or deputies present at our convention to discuss problems relative to their departments."

Premier Aberhart was to have appeared Thursday afternoon with Hon. W. A. Fallow, minister of public works, and Hon. Dr. W. W. Cross, minister of health, scheduled to be present on Friday morning, according to the convention program.

Hon. Charles Cockroft, provincial treasurer, addressed the gathering Wednesday afternoon as scheduled.

Crystal Dairy Wins at Toronto

One 1st prize and two 2nd prizes out of three boxes exhibited were awarded the Crystal Dairy of Didsbury at the Toronto Royal Winter Fair last week. The 1st prize was won on a 14 lb solid pack; 2nd on 21 lb. prints, and 2nd on June butter.

The Crystal Dairy has been a consistent winner at all the larger fairs in Canada, which is complimentary not only to the Creamery, but to the quality of the cream sent in by the patrons.

Donate Funds to Fire Victims

At a regular meeting of the L.O.D.E. held at the home of Mrs. G. A. Wallace on Monday it was decided to send a donation of \$10.00 to the fund being raised to assist the farmers who suffered loss of their homes in the fire which raged in the Cochrane district Thursday last.

Christmas Mails.

The latest dates for mailing Xmas mail to Great Britain and Ireland is December 5th.

All Christmas letters and parcels to the U.S.A. should be mailed before December 15th.

WEEKLY SERMONETTE

"The only adequate gauge of the quality of our religious life is furnished by our attitude toward those from whom we are separated by prejudice, temper, or the consciousness of unfair and unkind behaviour. These relationships furnish the real test of what we are before God; since we are toward God what we are toward them."—F. B. MEYER

WEEKLY JOKE

Hebrew Father: "Tell me q'rick, if yer 'ad a t'ousand dollars, vot would yer do with it?"

Little Solly: "Insure it for two t'ousand, father."

HOCKEY.

What about hockey this winter? There is a man in town who has played with the Regina Pats and the Victorias. He came to play hockey and is raring to get out and not only coach a team but play as well, provided that the boys mean business, will take advice, and attend practice.

So what about calling a meeting and talking the matter over? Anyone who is interested or wants to play hockey should watch for an announcement of a meeting and then let everyone turn out and get the old puck rolling.

At the same meeting a junior or juvenile team could be organized as there are plenty of coaches available. —So Let's GO!

Teachers Will Meet.

A meeting of the local branch of the A.T.A. will be held Saturday afternoon at 3 o'clock in the public school. The new "Enterprise" technique will be discussed. All teachers of the Didsbury district will be cordially welcome. Tea will be served by the local teachers.

The Wheat Problem

What to do about wheat is the greatest poser facing the Western Canadian farmer, not only for the immediate present, but for the long range future. Should he grow more, or should he grow less, or perchance, should he forget about wheat and turn his attention to other crops and other activities?

It is safe to say that this problem causes more sleepless nights on the Western Canadian prairies than anything else. It is probably not far from the truth to say that the question is uppermost in the mind of the average tiller of the soil the greater part of his waking hours and that during the night it perturbs his slumbers.

The farmer seeking the solution of the problem can get plenty of data which has a bearing on the subject and a plethora of advice without going far afield for it, but unfortunately for him and for his peace of mind so many complications are involved in the answer to the question and so many, so diverse and contradictory are the replies that the greater his research, the greater must be his confusion and the farther he is away from a conclusive solution.

To solve the problem with even a remote degree of assurance, the interrogator must not only be in possession of an immense amount of current available information but he must also be something of a prophet. He must be able to peer into the crystal of the future and divine what is ahead.

As there are no infallible methods of determining the unknown factors of production and marketing he must make his guess as best he can and shape his course accordingly.

If he guesses right and successfully runs the gamut of early and late frosts, grasshoppers, wire worms, cutworms, thistles and other noxious weeds, windstorms and hail, rust and other blight and pulls off a crop, he is faced with the possibility that it may be a drug on the market and that the reward of his labors may be little better than zero.

Added to all these and many other unrecorded uncertainties and handicaps comes a new threat to the existence of cereal farming as it is practised on the prairies in the form of grain produced on an intensive scale under factory conditions and without the use of soil as a medium, a method discovered by two Englishmen after four and a half years of research and now being tested on a commercial basis.

To quote a Magazine Digest summary of an article appearing in the Sunday Express of London, "the inventors claim that under their scheme which they call 'cabinet culture', one acre of floor space is equal to 1,760 acres of grass land; sixpenny-worth of seed will grow 200 hundredweight of green fodder; one crop of fodder can be produced per day instead of one per year; a farmer feeding intensively cultivated corn instead of hay and grass to his livestock will save \$2.50 on every pig brought to bacon weight, \$5 on every bullock, and from 15 to 20 per cent. on milk production because they will be eating young, fresh food instead of old or dried grass which has been weakened of its vitamins.

"The inside of the cabinet contains rows of trays, each one with corn in a different stage of growth. To-day's tray holds seed. Yesterday's shows the white shoots. The shoots are larger and larger up to the tenth day when the fodder is full grown and ready to be taken out and eaten.

"There is no soil. On top of the cabinet is a tank full of water containing a small proportion of a chemical solution. The chemicals are those of which the soil consists. Enough solution to last a month costs \$3.75.

"In the bottom of the tank are small holes. For three minutes every 24 hours a tap is turned on and the tank drops 'rain' on to the top layer of trays. By the tenth day the growth can be lifted out of the tray like a grass-grown mat. The animals eat every scrap of it and the tray is left perfectly clean. There is no earth or dirt of any kind in the whole process."

"Animals fed on these intensive crops can be kept in yards or barns." It is reported that already efforts are being made to establish an agency and import some of these "factory-farms" to Western Canada.

If the 'inventors' claims for this method of growing crops can be demonstrated as commercially feasible and economical no doubt the next step will be to improve the system to enable it to bring wheat to maturity, and if that can be done with success one wonders what will happen to the wide expanse of grain fields which constitute such a large section of the prairie provinces and what will happen to the investment in capital and labor which the farmers have sunk in hundreds of thousands of acres.

There is just one consolation for the prairie farmer and that is the fact that the scheme has not been proven a commercial possibility. Quod erat demonstrandum.

Transcontinental Air Route

Lieut.-Col. George A. Drew, Canadian military writer, told the Electric Club at Toronto that immediate establishment of a transcontinental air route is essential if Canada is to take its proper place in the world. Canada's best contribution to empire defence can be made through aviation, he said.

January is the official birthday of all thoroughbred horses.

What do they mean about "the good old days?" Well, the answer may be an item in the 35-year-ago column of the Brantford Expositor: "The relief officer reported an outlay of \$24.72 during August."

Ancient Rome's famous Baths of Diocletian could accommodate 3,200 bathers at one time.

Roundup Of Reindeer

Thirty Thousand Reindeer To Be Earmarked In Alaska

A roundup of 30,000 reindeer, one of the largest in Alaskan history, was planned by a United States official.

For the purpose of slaughtering some, earmarking and caring for the health of others, great corrals will be built 50 miles inland from Point Barrow.

There the deer will be counted and marked after they have been herded by the Eskimo from the Arctic plains for hundreds of miles around.

Instead of branding the reindeer, the Eskimo will mark yearlings and fawns with various shaped slits and knife nicks in the ears.

New Minister To Canada

Belgium Proposes Sending One In Addition To Consul

Belgium proposes to send a full-fledged minister to Canada, in addition to the present Belgian consul. Perhaps the Belgian government realizes that Canada is the most solid part of the British Empire, oceans on both sides, the Arctic on the north, the United States on the south, no near enemies, unlimited possibilities. The day may come, and probably will, when Canada will be the real British Empire, with London for its European headquarters.—Chicago Herald and Examiner.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of camels but have no camel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Good Habit To Cultivate

Children Should Be Taught Kindness To Dumb Creatures

Victor Hugo says of that bishop whom all readers of "Les Misérables" will never forget, "he sprained his ankle once trying to avoid stepping on an ant." He belonged to the order of those who would not "needlessly set foot upon a worm." This attitude toward life, even when we meet it in its lowliest forms, can be cultivated in children if parents start early enough. If there are harmful creatures whose meaning we cannot understand and which must be destroyed, let the destruction be without unnecessary suffering and never in the spirit of cruelty.—Our Dumb Animals.

First Canadian Telegraph

Company Was Formed At Toronto Ninety Years Ago

Ninety years ago the first telegraph company in Canada was formed at Toronto and within a few days active construction upon the pioneer wire line between Toronto and Hamilton was commenced. In January the line was completed to Queenston. The same year the Montreal Telegraph Company established communication between Montreal and Toronto and, in 1852, purchased the initial Toronto company.

Presents Family Cradle

The cradle bought at Morley, Eng., 84 years ago for Herbert Henry Asquith, early war premier who became Lord Oxford and Asquith, has been presented to Morley by Henry Asquith, one of three generations of the family who have used the cradle, his father and his own daughter having been rocked in it. The gift has been accepted by the mayor.

World Jewish Problem

The Jewish Population Of Poland Is 3,500,000

The world Jewish problem took on new complications at Geneva with a Polish demand that the League of Nations find a home somewhere else for the Polish Jews.

M. Komarnicki, the Polish delegate, told the League assembly's political committee that while Palestine was the natural and principal home for the Jews, other places must be found as an asylum for the "immense reservoir of Jewish population inhabiting Central and Eastern Europe."

The Jewish population of Poland is 3,500,000.

The government moved at Jerusalem to end sabotage by arresting 36 Arabs and accusing 15 more of damaging the Iraq Petroleum Company pipeline. Brigands have in the past continually destroyed sections of the pipeline and fired the escaping oil.

SELECTED RECIPES

MAGIC CREAM COOKIES

2 eggs
1 cup sugar
1 cup thick cream
3 cups flour
½ cup shredded cocoanut
3 teaspoons Magic Baking Powder
½ teaspoon salt
Beat eggs until light, add sugar gradually; add cocoanut, cream, and flour (which has been mixed and sifted with baking powder and salt). Put away in ice box until thoroughly chilled, then turn on to a floured board and roll one half inch thick. Sprinkle with cocoanut and roll one fourth inch thick; cut with a small cutter, first dipped in flour. Bake on a buttered sheet in a moderate oven.

Fighting Planes For Canada

Royal Canadian Air Force Receiving Equipment From England

The Royal Canadian Air Force now is receiving new equipment recently purchased in England at a total cost of more than \$500,000. Two of seven Shark bombing planes have arrived and are now being assembled at the Rockcliffe airdrome and the other five are on the way. These machines cost \$64,890 each.

The bombers might be said to be the first real war machines bought by Canada since the Great War. They are the latest type of fighting machine and similar to many purchased by the British government recently. With a maximum speed of 175 miles per hour they are capable of staying seven hours in the air.

In addition to the bombers 10 planes are being made for the force at Fort Erie, Ont., at a cost of about \$6,000 each. They will be used for training of beginners in the force.

Cause Of Cataracts Unknown

Certain Food Extracts Said To Have Effect On Eye Malady

The cause of cataracts, which has baffled the medical world for centuries, was believed to be a step nearer solution with the discovery by Dr. Agnes Fay Morgan, chairman of the department of household science at the University of California; and Bessie B. Cook, a graduate student, that certain food extracts have a material effect on the eye malady.

In a report to the society for experimental biology, Dr. Morgan said her experiments showed that presence of lactose or galactose in the intestine, and frequent gastro-intestinal absorption difficulties associated with a deficiency of vitamin G offer a possible common attack on the problem.

"In lactose and low vitamin G diet tests, there was a hundred per cent. incidence of cataract," the report said. "Likewise the lactose fed controls grew at about 60 per cent. of a group of cornstarch fed controls."

Dr. Morgan said the cause of cataracts is still unknown but that the determination of the cause has moved a step in advance in the possible future prevention of the disorder.

Girl Pat Escapade

Skipper And His Brother Convicted In Old Bailey Court

George Osborne, skipper of the wandering trawler, Girl Pat, and his brother, James, were convicted in Old Bailey court in London of theft of the vessel. George was sentenced to 18 months in prison and James, formerly of Toronto, to 12 months.

The Girl Pat put out from Grimsby last April, ostensibly on a fishing expedition. She put in along the Spanish coast, at the Canary Islands, and in West Africa. She was next reported off French Guiana and finally was captured in June off British Guiana.

Tourist Traffic Shows Advance In Mountain Parks Of British Columbia

Motor tourist traffic to the National Parks of Canada for the six-month period ended September 30, 1936, showed an increase of 14 per cent. over figures for the corresponding period in 1935, according to a statement issued by the Hon. T. A. Crerar, Minister of the Interior. With one exception, individual park units, where a record of motor travel is maintained, disclosed gratifying gains over last season.

A remarkable advance was registered in the mountain parks of British Columbia, where Kootenay's total of 44,656 visiting motorists represented a gain of 29 per cent. over 1935. Registrations in Yoho Park which totalled 17,474 persons reflected an increase of 20 per cent. over the previous season.

Of Alberta's National Parks, Banff and Waterton Lakes showed the greatest gains. Motor registrations at the eastern gateway to Banff Park totalled 118,247 against 91,502 for 1935, a gain of 29 per cent., and traffic to Waterton Lakes Park advanced from 47,777 to 58,546, an increase of 22 per cent. Motor traffic to Jasper Park increased 55 per cent. to 3,391 and a slight gain was recorded at Elk Island Park where 42,832 persons were counted. Attendance at Buffalo Park declined slightly from last season, the figures for the six-month period totalling 8,440.

Saskatchewan's national playground, Prince Albert Park, experienced an increased flow of tourist traffic, with the total of 24,271 visitors representing a net gain of 20 per cent. Riding Mountain National Park in Manitoba with 94,627 visitors to September 30, is well ahead of the total for the same period in 1935 and promises to exceed the record of 100,035 established for the whole season of 1934.

Of all the National Parks, Point Pelee Park in southwestern Ontario received the greatest number of visitors, where 260,140 motorists set a new all-time record for this popular recreational area.

Electric Plough Used In England

Used On Farm In England For The Past Twelve Years

Electric ploughing was one of the subjects dealt with at the recent World Power Conference held at Washington, U.S.A., and mention was made of the only electric plough in England which has been in use for the past 12 years on a farm in East Grinstead. The equipment consists of a two-wheeled carriage, upon which is mounted a 12 h.p. motor, complete with starting switch and speed reduction gear, as well as two cable drums, either of which can be driven at will by means of the motor.

The equipment is anchored in a convenient position in the field and adjacent to the overhead lines which supply the power. The set operates on the roundabout haulage system. A double-furrow anti-balance plough is used, being drawn to and from across the field by a steel rope attached to the drums on the carriage. The speed of ploughing is from one-third to one acre per hour, varying with the nature of the soil and depth of furrow ploughed. Five acres a day is the average with such a small set.

Coronation Colors

Red And Blue Are Given Royal Approval

Red and blue have been chosen for popular dress at the coronation of King Edward VIII. next year.

Royal approval has been given to two particular shades of each of the colors chosen from thirty hues of each. The selected shades will be called "coronation red" and "coronation blue."

The red is between magenta and scarlet and the blue between royal blue and lido.

London ladies are flocking already to shops to buy the proper shade.

American people pay more in federal, state, and local taxes than they do for food, rent, clothing, and other living expenses.

Modern Pied Pipers

Scientists Faced With Necessity Of Exterminating Rodents

Modern Pied Pipers are two scientists who left Honolulu recently to fly 2,500 miles across the Pacific to Wake Island to kill rats.

Faced with the necessity of exterminating rodents on Wake before inaugurating passenger service to the Orient, Pan American Airways secured the federal government's cooperation in sending scientists to supervise the job.

Armed with traps, guns and poisons instead of a flute, Henry K. Spencer, biologist with the U.S. experiment station in Honolulu and H. G. Hansen, member of the U.S. biological survey in Hawaii, drew the assignment.

Wake actually is comprised of three tiny islands—Wake, Peale and Wilkes—enclosed by a coral lagoon, 2,500 miles due west of Honolulu. On Peale, Pan American has built its air base, third stepping stone on the route to Manila, and here the rats cavort. They eat everything available, even gnawing through heavy canvas, boxes and crates to filch food supplies.

Thousands of them, descendants of rats who "hitch hiked" to Wake during ancient Polynesian migrations, overrun the three islands. They reproduce faster than men can shoot them; they are smart enough to dodge ordinary traps after the first few hundred have been caught.

Soil Is Wearing Out

Conservation Is Necessary In Canada To Ensure Good Crops

In parts of Europe where soils have been tilled for a thousand years or more yields are increasing while here in Canada, on what is almost virgin soil, comparatively speaking, our yields are quite unsatisfactory.

Most of our soils have been cultivated for many years, and unsatisfactory crops are blamed on the weather, on the seed used, on late or early seeding as the case may be, and we quite overlook the fact that probably the real cause is soil exhaustion. Our soils are wearing out. Moreover, soil deficiency may manifest itself in live stock through lack of thrift, lack of resistance to disease, depraved appetite and in other forms which we sometimes attribute to just plain cussedness.

We might as well admit that plant food in the soil is not inexhaustible and that we cannot continue taking potash, phosphate, nitrogen and lime out of our land without putting any back and expect to go on growing good crops indefinitely and keeping our live stock healthy and vigorous.

Soils require intelligent treatment, and now that science has come to our aid with quick practical soil tests there is no reason why we should longer continue to ignore the subject of soil conservation which is so fundamental to successful agriculture.—Farmer's Advocate.

Must Be Given Chance

Advertising Only Once Is Poor Way To Get Results

Suppose you threw a stone at a mark and missed it, what would you say? Would you say that there was no mark to hit, or that it couldn't be hit, or that the stone was so misshapen that it would not carry true to aim? Or would you be candid any say that the failure was due to your own lack of skill? And if you really wanted to hit the mark, would you make but a single throw? Would you not keep on trying until you hit the mark—probably as a consequence of improved skill in throwing stones?

Yet there are men who use advertising but once, and who, when the hoped-for results are not instantly obtained, declare that advertising is no good, or that the medium is no good.—J. C. Kirkwood, in Marketing.

Magistrates in Shantung Province, China, will in future get a salary of \$6.75 a month.

Displacing The Busy Bee

Man Attempting To Take Over Job Of Pollination

Meddlesome man is constantly trying something to throw the old order out of kilter. We have always liked that simile "busy as a bee," but the time may come when it will have to be relegated to the limbo of forgotten things simply because it has become obsolete.

Bees, as every schoolboy knows, perform a two-fold service in the natural scheme of things. The little insects carry on pollination as they go from blossom to blossom in quest of nectar. Of course, the wind carries pollen, too, but the bees seem to make a better job of it.

Now man is making a brazen attempt to make the bees feel that they are no longer needed to assist in pollination. According to the New York Sun, orchardists in Wenatchee, Washington, this spring, under the supervision of the Washington State College extension service, pollinated apple trees by hand; in nearly every instance the apple set was almost doubled. Blossoms from pollinizing varieties of trees were rubbed on screens, causing the pollen to drop through upon a piece of paper. After being allowed to dry for 48 hours the accumulated pollen was placed in a bottle. Then the workers, equipped with small brushes, touched one blossom in every second, third or fourth cluster with a tiny particle of pollen.

One limb dependent on bee pollination was used a check. It contained 137 bloom clusters; of these only seven blooms set, producing seven apples. Another nearby limb had 93 clusters; one bloom in each cluster was pollinated by hand and 87 apples were produced, weighing the limb to the ground. Hand pollination pays where trees are healthy and crops light, provided that the task is well performed. They believe the process promises to be cheaper than the annual shipping of millions of bees into the district.

Livestock On Prairies

Census Shows Fewer Horses And Hogs But More Cattle

Small reductions were reported in the number of horses, cattle and sheep on Canadian farms, by the Dominion Bureau of Statistics as of June 1 last compared with the same date a year ago. The number of hogs, however, increased by 23 per cent.

The census return for the three prairie provinces showed a comparison with the last census five years ago. In all three provinces the number of cattle increased in the five years while the number of horses, hogs and poultry decreased. The number of sheep increased in Saskatchewan but decreased in Manitoba and Alberta.

Water freezes every night of the year at Alto Curcerim in Bolivia, while at noon the sun is hot enough to blister the skin.

Woman From Scotland The Unsung Heroine of a Most Amazing Household

Reward Would Be Proper

For Canadian Farmers Who Continually Produce Good Bacon

Quality is essential, but of equal importance in our bacon trade with Britain is dependability and continuity of supply. The grower who consistently maintains one sow or two, striving always to improve the quality, is making a far greater contribution than the in-and-outter who one year takes out ten litters of pigs and the next year none at all. It would be quite proper if some system of reward or compensation could be instituted for those who carry on with steadiness of purpose and with continuity of production.

Canadian farmers have been obliged in the past to think very little about marketing, and were thus able to concentrate largely on production. Now since the nations have all become jittery and have adopted the policy of self-sufficiency, marketing is a real problem for the governments and for the farmers themselves. We must of necessity become market conscious and plan our operations with markets in mind as well as yields.

Latterly hogs have been the best paying live stock on the farm, and there has been what amounts to an unlimited market for the product. In spite of that our swine production record during the past five years has been nothing to boast about. A great opportunity has been lost!

Has A Unique Display

Provincial Public School Exhibition Attracts Large Crowds

A unique display, "The Evolution of Making a Bed," entered at Nova Scotia provincial exhibition by children of the Dartmouth public schools, attracted considerable attention from patrons of the show at Halifax.

The display consists of a number of drawings contributed by children from grades one to eight. "The idea," Supervisor of Dartmouth Schools G. C. Beazley explained, "is not to judge the display by the individual drawings but by the development by grades."

"The work of the first grade pupil is sometimes mere lines to indicate the bed. One can almost see the mind of the pupil developing with the drawings as the work of the succeeding classes reveals their ability to illustrate the desired idea. In the final stage the work is of high character."

Mr. Beazley got the idea for the display while visiting Scotland last year.

Bolivia ranks second in world production of tin, producing about one-fifth of the total supply.

Toys For Tots Are Fun To Make

Household Arts by Alice Brooks

Two Pieces Form Each Toy

PATTERN 5723

Establish your reputation with these simple toys. Donate them to the Fair—they'll sell like hot cakes! Give them to some tot for Xmas—they'll meet with instant popularity! You'll enjoy making them, too, for they're but two pieces joined. You can make them inexpensively, of bits of leftover material, they need so little! In pattern 5723 you will find a pattern for the animals shown; directions for making them and material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

The eyes through which Helen Keller, the famous blind woman, sees the world, are now revealed.

The story is that of a Scottish woman who for 14 years had to see everything she looked at in three different ways. Now that woman—Miss Polly Thomson, Miss Keller's secretary—need see only twice, for Mrs. Anne Sullivan Macy, Miss Keller's teacher, died recently.

Until Mrs. Macy's death, the woman from the Scottish highlands was an unsung heroine of one of history's most amazing households. For a decade and a half she buried her identity in the task of serving as eyes for the blind and deaf Miss Keller, and for the virtually blind teacher who led Miss Keller to international fame.

While she lived, the teacher held the spotlight for her accomplishment in teaching Miss Keller to speak, and to "hear" through her hands.

However, it was not Mrs. Macy, great though her contribution was, but Miss Thomson through whom Miss Keller saw life almost as clearly as though the eyes were her own.

To keep her employer abreast of current events, Miss Thomson maintained a household on lines astoundingly close to normal.

The mere fact her two companions could not see did not prevent their reading their favorite newspaper at breakfast every morning. Propping it up, the secretary would read as she served the meal. Mrs. Macy, who could hear, would hold Miss Keller's hand and relay the news to her in fingertip "writing." Miss Keller would comment in her monotone voice, and discussion would pass from hand to hand.

If the news were particularly interesting, the three would retire to the living-room and talk it over in detail.

After that, on an average day, would come the sorting of the mail. More often than not, Miss Keller would have a speech or plea of some sort to write for aid to the blind. While she went to the third floor to write it, finding her own way to her study, Miss Thompson would go through the incoming envelopes.

If there was an urgent letter, the secretary would stamp her foot on the floor. Miss Keller would feel the vibration upstairs, and hurry down to compose an answer.

When evening came, there was entertainment to think of. They might stay home and listen to the radio, with Miss Thompson "writing" the broadcast in Miss Keller's palm. If there was music, Miss Keller's fingers would rest on the loudspeaker to pick up vibration.

They went to movies, too, and plays. Miss Keller saw the scenes as they flickered on and off the screen, thanks again to her secretary's nimble fingers. If Mrs. Macy went along, the relay worked again.

It was because of Mrs. Macy's failing eyesight that the 29-year-old woman from Glasgow became Miss Keller's secretary.

Patriotic Corn Developed

Ears Had Stripes Of Red, White And Blue Kernels

Patriotic corn—red, white and blue—was harvested this fall at the Connecticut Agricultural Experiment Station in New Haven, Conn.

Relating how it was developed, Dr. W. R. Singleton said it might be described as "a piece of scientific nonsense."

Dr. Singleton said he divided the silks on a white stock into three parts. He powdered one part with pollen from a red-kernelled plant, pollinated the second with blue and the third with white. Then he covered the silks carefully to prevent contamination by other pollen.

The result at harvest: Ears with stripes of red, white and blue kernels.

Confucius is not a Chinese name. It is the westernized, or Latinized, version of "K'ung Fu-tze," a Chinese phrase meaning "The philosopher, or master, K'ung." K'ung was his clan, or family name.

J. E. Gooder - Editor & Manager

The World of Wheat.

By H. G. L. STRANGE

Director "Crop Testing Plan."

Wheat is probably the oldest of the world's crops.

A larger quantity of it is consumed than of any other foodstuff, with the single exception of potatoes. In prehistoric times wheat was cultivated throughout Europe and was one of the most valuable cereals of ancient Persia, Greece and Egypt.

It has always been prized for the high quality bread which it produces—whenever it is possible people turn from foods made from rye, barley and oats, to bread made from wheat.

It is grown in almost every country in the world, the only parts from which it is absent being the hot, low-lying regions of the tropics; Siam, however, being the one notable large country where no wheat is produced.

Its cultivation is simple and it is adapted to more varying soils and climatic conditions than any other food plant known.

It has ripened as far north as Skibotten in Norway and is cultivated around Archangel on the White Sea and in Verkhoyansk in Siberia within the Arctic circle. It is as well cultivated on the equator in Ecuador and Columbia.

Wheat is also grown at different altitudes, varying from sea-level to a height of 15,000 feet in Tibet.

Prices have tended to be raised recently by the following: Demand for Canadian wheat increasing, Subsoil moisture very deficient in Western Canada and spring wheat area in U.S.A. and in parts of the winter wheat belt, U.S. purchases large quantities of Argentina corn, Rains delay planting in parts of Europe, Production of dried beans in Danubian Basin less than normal.

These factors have tended to push prices down: Wheat surplus in Danubian countries estimated at 100 million (all-time record), Large quantity of wheat afloat to world's markets, Estonian production of potatoes increasing, Argentina shipping surprisingly large quantities of rye.

Winning---As Usual.

Alberta exhibitors have been capturing a creditable number of prizes at the Royal Winter Fair at Toronto, as they usually do. The awards are distributed over both grain and livestock entries, Mr. Trelle taking his customary place at the head of the list of spring wheat exhibitors.

It is significant of the high quality of this year's crop in Alberta that the second award for spring wheat went to another Wembley man, the third to R. T. Rickett of South Edmonton, the fifth to Nels Linden of Wetaskiwin, the ninth to Stanley M. Jones of Westlock, and the tenth to A. W. Ardley of Tees.

Twin sisters living at Conjuring Creek, Misses Ethel and Lillian Ferguson, provided the spectacular feature last Wednesday, by winning the competition in swine judging. This is the first time the honor has gone to the fair sex, indicating that Alberta girls have added to their

recognized talents for leadership that of knowing their pigs.

With the Guelph show and the International yet to come, Alberta exhibitors are away to a good start, with prospects for bringing home another impressive string of prizes from these famous fairs.

Doings of Our Neighbors

AT INNISFAIR: It was suggested at a meeting of the Innisfail Curling Club held Tuesday last that either the Didsbury or Innisfail Clubs put up one of their cups for competition along the C. & E. line during the curling season.

Mr. John Wilson Jr. is in Toronto as a judge of the sheep classes at the big annual livestock show. In view of the fact that this is the first occasion that an Alberta man has been asked to judge sheep at Canada's biggest stock exhibition, it speaks very highly of Mr. Wilson's nationwide reputation as a sheep expert.

Announcing THE FORD V-8 FOR 1937

The Quality Car in the Low-price Field

V-8

85 HORSEPOWER

Maximum Performance
with Good Economy

Bore, 3.062 in. Stroke, 3.75 in.
Displacement, 221 cu. in.

Two Engine Sizes - One Wheelbase

AND A NEW LOW PRICE

V-8

60 HORSEPOWER

Good Performance with
Maximum Economy

Bore, 2.6 in. Stroke, 3.2 in.
Displacement, 136 cu. in.

THE New Ford V-8 for 1937 is the most beautiful Ford car ever offered. It is built in only one size with one standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance—or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car—a lower priced car, with lower operating costs—and permits still more people to enjoy the smoothness, quietness and reliability of the V-type 8-cylinder engine.

Improved 85-horsepower V-8 engine—Drive it and watch the speedometer!

More than three million owners are now enjoying the superior performance of the Ford V-8 engine on the road. When you drive the 1937 Ford with the 85-horsepower V-8 engine, you are master of a power plant that

gives everything you can possibly demand in speed and acceleration. Today it is a better engine than ever—with a better cooling system and new smoothness. Yet improved carburetion enables it to deliver its thrilling performance with unusually low gasoline consumption.

New 60-horsepower V-8 engine—Drive it and watch the fuel gauge!

The new 60-horsepower V-type 8-cylinder engine is almost an exact replica of the 85—except for size, weight and power. It delivers V-8 smoothness and quietness—even at speeds up to 70 miles an hour—with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

We invite you to see this new Ford car at your Ford dealer's showroom, and arrange to drive one equipped with the engine that fits your own needs.

FEATURES

APPEARANCE—A newly designed car. Headlamps recessed in fender aprons. Modern lid-type hood hinged at the back. Larger luggage space. Spare tire enclosed within body. Completely new interiors. Slanting V-type windshield opens in all closed cars.

BRAKES—New Easy-Action Safety Brakes, of the cable and conduit control type. "The safety of steel from pedal to wheel." Self-energizing—car momentum is used to help apply the brakes. Tests show that about one-third less pedal pressure is required to stop the car.

BODY—Not an ounce of wood used for structural strength. Frame structure all steel, sheathed with steel panels—top, sides and floor. All are welded into a single steel unit of great strength.

COMFORT AND QUIET—A big, roomy car. Extra space is in the body, not taken up by the engine under the hood. Comfort of the Centre-Poise Ride further increased by smoother action of the long-tapering springs, with new pressure-lubrication. New methods of mounting body and engine make this a quieter car.

Burnside Notes.

Mr. Jack Clarke spent the weekend
in Calgary.

Mrs. B. Woods and Miss S. Zook
spent a few days last week in Calgary.

Mr. John Miller, who has been
ailing for some time, was removed
to the Belcher hospital for treatment.

Mr. George Shells spent a couple
of days last week in Calgary on im-
portant business.

Mrs. Walter McCulloch and Messrs.
Gus and Otto Bittner spent a few
days in Calgary, where their sister,
Rosie, is very ill.

Mrs. Charles Mardon returned
last week from a six-weeks visit to
relatives in Detroit and points in
Ontario.

Mr. Ralph Long left Saturday
afternoon to visit his father and
other relatives in New Brighton,
England.

Mr. and Mrs. E. R. Dawson and
Rex, of Sunnyslope, and Mr.
Sam McAllister spent Sunday with
Mr. and Mrs. N. Eckel.

Miss Rosie Bittner, formerly of
this district, underwent a severe
major operation in the General Hos-
pital last Friday and, at last reports,
is slightly improved.

The Lone Pine S.C. Group re-
organized on November 12. The
officers elected are: president,
Lloyd Hehn; vice-president, Abe
Dyck, and secretary-treasurer, Fred
Fritz. Social committee: Samuel
Thoman, Mrs. Lloyd Hehn and
Sara Dyck. The next meeting will
be held December 3rd at Mr. and
Mrs. Jenkins. Everyone welcome.

Notes From the West

Dance at Elkton School Nov. 27th.
Proceeds for Children's Christmas
Concert.

Rev. C. E. Rogers of Carstairs is to
present a moving picture in Elkton
School next Tuesday evening, Dec. 1.

Mrs. F. Byrt is visiting with Mrs.
Wigley of Westerdale for a week or
two.

Mr. and Mrs. D. Evans were din-
ner guests with Mrs. Dobson on
Sunday.

Mrs. Orde and baby daughter
spent last week visiting relatives and
friends at Elkton.

Mr. and Mrs. E. Parker spent
Sunday evening with Mr. and Mrs.
Evans.

Mr. and Mrs. McCondach of Cal-
gary were Sunday visitors with Mr.
and Mrs. J. Hosegood.

Mr. and Mrs. Billy Brown drove
to Calgary through the high wind
Thursday last—Something they
wouldn't care to repeat.

A large crowd attended the dance
in Elkton School last Friday and
about \$25.00 was realized for the
people who recently lost their home
by fire. A wool comforter made by
the Rugby W.I. was also given them.

Items of Interest

The Edmonton Grads attained
their majority last week, having
been twenty-one years in the basket-
ball game. While the Grads are an
all-Edmonton organization we living
outside the capital city regard them
as our team and worthy representa-
tives of this province. We are
proud of their record and congratu-
late the Grads of 1915 and the
Grads all down through their twenty-
one years of brilliant successes.

The Calgary Exhibition & Stam-
pede recorded a profit of \$8,295.30
on 1936 operations, according to the
financial report presented by E. D.
Adams, chairman of the finance
committee, at the annual directors'
meeting held Friday. Surplus of
assets over liabilities at the end of
the fiscal year totalled \$43,178.83.
Revenue totalled \$146,328.72, and
expenditures amounted to \$138,033.
42, leaving a net profit on operations
of \$8,295.30.

Social Credit Notes.

The members of Didsbury Social
Credit Study Group No. 1 postponed
its regular meeting until Monday,
December 7, when a second annual
meeting will be held at the home of
Mr. and Mrs. A. Schwesinger. All
members are urged to attend. The
group received a letter from Mr.
A. A. McKenzie, Edmonton, stating
that there is no foundation whatever
for the rumor that the government
is offering towns and municipalities
\$22.50 in prosperity certificates to
relieve recipients as an equivalent to
the \$15.00 now being paid by the
towns in currency.

Mrs. A. Schwesinger, Sec.-Treas.

The Didsbury Pioneer S.C. Group
held its last meeting at the home of
Paul Reshke on Monday evening,
November 23rd. Following an
entertaining program of musical
selections and songs the president
spoke on various subjects pertaining
to Social Credit. He reported that
merchants from all over the province
are reporting that since the prosper-
ity certificates were taken out of
circulation and sent to the govern-
ment for redemption, business has
deadened very much, and the same
merchants are now requesting the
provincial government to devise ways
and means to again get more pros-
perity certificates into circulation to
stimulate business. The next meet-
ing will be the annual meeting and
election of officers for the coming
year. It will be held at the home of
E. N. Boettger on Monday, Nov. 30
at 8 p.m. All are welcome.

H. Erb, Secretary.

As a Life Insurance Policyholder

You Share in the Ownership of These Valuable Assets

Government Bonds First Mortgages Municipal Bonds
Industrial Securities Public Utility Bonds

YOUR savings in Life Insurance—which help to form the Assets of the
company in which you are insured—not only protect you and your
family but also make you a part owner of high-grade securities.

For example—as a Life Insurance policyholder, you share in the
ownership of Government and Municipal bonds. These bonds provide for
the construction of highways, railways, canals, schools, water and sewage
systems, and other important public enterprises.

You likewise have a definite financial interest in Canadian industries,
and in Canadian homes and farms.

The Life Insurance companies, which your enterprise and thrift have
built up, acting on behalf of yourself and 3,500,000 other policyholders,
invest the Assets you have entrusted to them. In making these investments,
they exercise the utmost care to secure safety with a satisfactory yield.

Of the combined Assets in the Life Insurance Companies operating
in Canada, the major part is invested in Government and Municipal bonds
and debentures. Large amounts are also invested in first mortgages on care-
fully selected city, town and farm properties, and in loans to policyholders.

You can take satisfaction in the fact that Life Insurance companies in
Canada have faithfully discharged their obligations. Even in periods of
greatest financial stress, every obligation guaranteed by their policies has
been fulfilled.

Canadian Homes

HAPPY SMOKES

Buckingham Fine Cut
MILD - COOL - SMOOTHWORLD HAPPENINGS
BRIEFLY TOLD

Death rate from tuberculosis has been cut in two in Ontario, Hon. Dr. J. A. Faulkner, Ontario minister of health, told a Peterborough service club.

A claw for the front of police automobiles has been invented by a famous English automobile racing driver to aid in the capture of criminals fleeing in cars.

A machine that tests 3,000 eggs an hour for quality and grades them by weight was on show recently at the Grocers' Exhibition at Royal Agricultural Hall at London.

Thomas Bryson, 93, the oldest foreign missionary in China, died at Tientsin recently. He went to China from Edinburgh in 1866 in a tea clipper which required 150 days to make the voyage.

Word reached Yorkton to the effect that Dr. Jos. Heaslip, who at one time in his career practiced medicine there and in Manville, Alta., has been appointed medical officer in the Guelph, Ont., reformatory.

Officials of the Northern Alberta railways estimated that 3,500,000 bushels of grain, mostly wheat and with an estimated value of \$2,500,000 had been marketed already this season by farmers in northern Alberta.

Just 145 years ago a man who couldn't sleep nights sent \$5 to the United States treasury. Since then many remorseful citizens have followed his example, until to-day the treasury ledgers showed \$624,113.70, all credit to the people's conscience.

Application of the Central Alberta Dairy Pool, Limited, and the Sunny Alberta Creameries, Limited, for a reduction in the freight rates on butter in carloads, from Alix, Alta., and Red Deer, Alta., to Vancouver was dismissed in a judgment of the Board of Railway commissioners.

New Garden Methods

Scientists Predict That Vegetables Can Be Grown In Chemical Tanks

A world of tomorrow in which families will raise their own vegetables from chemical tanks instead of gardens, getting a year's supply at the present monthly cost, was visualized by Arthur C. Pillsbury, scientist.

Pillsbury, also a naturalist, inventor, explorer, author and lecturer, said soil-less tank experiments had indicated a tenfold increase in vegetable production.

"Although the idea is not new, recent experiments have led scientists to believe that vegetables can be grown commercially in shallow tanks, partly filled with water, in which all the necessary soil requirements have been mixed," Pillsbury said.

"In one instance shallow-tank-grown potatoes produced between two and three thousand bushels to the acre compared with a United States average of 104 bushels."

Head Clerk: "What's the matter, Jodkins? Can't you help the customer?"

Clerk (desperately): "No, sir. He's trying to find two shoes that squeak in the same key."

A skilled "animator" is said to maintain an excellent average if he turns out from five to eight feet of animated cartoons in a day.

Inventions Of The Future

Experts Have Visions Of Corncoob Equipped With Zippers

Speculating on the wonders of the future, United States government experts who spend their time examining agricultural patents have envisioned:

Corn on the cob equipped with zippers; bananas flourishing in Maine; grapefruit that automatically squeezes itself; seeds that, planted before breakfast, produce ripe vegetables for dinner, and trees that spring from acorns in a year.

"All of these fancies seem impossible at present," said a patent office statement, "but not necessarily any more so than the aeroplane or radio would have seemed to the examiners on 1936 when the present system (of industrial patents) was established."

Patents on plants were legalized six years ago and have multiplied like garden weeds in spring rains. More than 1,000 applications have been received for patents on vegetables, fruits, flowers and trees.

Approximately 200 have been issued for such things as raspberries, carnations, grass for golf greens and water lilies.

Predicts World War

Visitor Looks For Hostilities Within Two Years

Another world war within two years was predicted by Emil Ludwig, German-Jewish biographer, who arrived from South America with his wife.

Asked if he meant conflict between Fascist and Communist nations, Ludwig waved a hand, waved away the political labels.

"It is no longer Communism and Fascist," he said. "You have so much of state Socialism in Berlin and Rome that one can no longer use the differentiating terms."

"No, war will come because there are two conflicting philosophies in the world. It will come just as it did in the days of the religious wars in Europe. It will come because there are the aggressive and defensive nations. They will fight."

Prison Reform

Canadian Penal System Under One Authority Is Suggested

Centralization of the Canadian penal system under one authority was suggested in a brief submitted by the Halifax branch of the Prisoners' Welfare Association to the royal commission investigating penal conditions.

The association recommended reduction of minimum sentence to the penitentiary from two years to one. There should be application of the League of Nations standard minimum rules in provincial and municipal as well as federal penal institutions, the brief said.

It suggested limiting to 500 the number of convicts in any penitentiary; graduation of status of penitentiaries; visiting committees with advisory functions and technical training for prison officials.

Nurses Contract Tuberculosis

Thirty Cases Discovered Among Nurses In Training In Ontario

Thirty cases of active tuberculosis were discovered among Ontario nurses in training in medical examinations conducted a year ago by the province, Hon. J. L. Sompson, Ontario minister of education, said in an address before the Ontario Hospital Association at Toronto. In the last two years 23 training school teachers were found to be victims of active tuberculosis, he said.

Crashing into the Solent and tearing off his plane undercarriage, a Royal Air Force pilot managed to clear and make a perfect landing unscathed at the aerodrome in Gosport, England.

Have Great Many Uses

Old Automobile Tires Come In Handy Around The Farm

Old automobile tires play an important part in Australia's farming life. They are reincarnated into an endless variety of useful objects.

There is hardly a farm in central Australia which does not possess its old-tire stock ready for transformation by its resourceful owners. The men make "bow-yangs" from circular strips from inner tubes. These are worn around the trousers, below the knee, in approved bush fashion, to keep out dust from the plow, and are becoming popular with the girls who use them for garters—suitably covered with colored ribbons. Some farmers find that sections cut from a tire make excellent brake leathers for their carts.

Old tires are almost universally used to resole boots. Braces, belts and even hatbands made of inner tube are considered correct in the "outbreak," and almost everlasting leggings are also made from them.

Inner tubes also prove handy for making collapsible buckets, and rifle cases. They are also invaluable as water-tight carriers for carrying the mail from the letter boxes, which are often as much as a quarter of a mile away from the farm buildings in Australia, in a rain storm.

Scientist Has New Theory

Believes Rust Will Some Day End All Life On Earth

A leading man of science says the earth may one day rust to death, ending all life on the planet.

Writing for the Smithsonian Institute, Dr. Henry Norris Russell described how the air's oxygen is slowly depleted by oxidizing (rusting) of iron in rocks.

"Given time enough," he said, "this inexorable process of rock decay might exhaust the remaining oxygen of our atmosphere and put an end to all that breathes."

Dr. Russell figured the end would not arrive for a billion years or more.

Chinese Are Honest

Always Carry Out Oral Contract In Letter And Spirit

Ed. Sullivan, in the New York Daily News, says: Fewer and fewer Chinese restaurants along Broadway, which used to be cluttered with them. . . American restaurants, by installing Chinese cooks and chow men cut into the patronage of the celestial cafe men. . . Theatrical agents tell me that the Chinese were the most honest of all Broadwayites to deal with. . . Few of them would sign contracts, insisting that this would offend the honor of their ancestors. . . None of them ever went back on their word. . . Over a 10-year span, the Chinese cafe men, without contracts, fulfilled the oral contracts in letter and spirit. . . Taxicab men who work the Bowers support this with additional evidence. . . Residents of Chinatown go to Newark to gamble, and they always go by cab. . . Sometimes the Chinese gambling games last all night, but regardless of the length of time they keep the cab waiting, the Chinese always return. . . Sometimes the bill amounts to \$30 or \$40, but it is always paid plus a tip.

Must Learn Housekeeping

German Girls Require Certificate Before Taking Other Training

The Ministry of Women of the Reich is sometimes described by German women outside the home frontiers as a sort of conscription for domestic training. Part of its work is to see that every class become proficient in household duties, and before taking up any other training she must possess a domestic proficiency certificate. At present some 12,000 families are training elementary school girls of 13, under government supervision; these girls have six marks a month pocket money and in their off time must attend one lesson at their nearest domestic training college. Government service is barred to the girl who cannot first qualify domestically.

Quickly Knitted in Stockinette Stitch

Household Arts by Alice Brooks

An Exclusive Model in Knitting

PATTERN 5718

Gloriously young and wearable is this two-piece of Alice Brooks design. Knitted so easily of sports yarn or string, the blouse finishes its neckline with a softly twisted collar, and boasts a front trim of alternate lacy diamond and stripes. Rib stitch makes snugly fitting cuffs and the smooth, hug-me-tight peplum. You can make the blouse with long or short sleeves. In pattern 5718 you will find instructions for making the blouse and skirt in sizes 16-18 and 36-40; an illustration of the blouse and of all stitches used; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

If You Have a Child

ASK YOUR DOCTOR THIS

Ask Him Before Giving Your Child an Unknown Remedy

Practically any doctor you ask will warn: "Don't give your child unknown remedies without asking your doctor first."

When it comes to the widely used children's remedy—"milk of magnesia," the standard of the world is established. For over half a century many doctors have said "PHILLIPS' Milk of Magnesia." Safe for children. No other is "quite like it."

Keep this in mind, and say "PHILLIPS' MILK OF MAGNESIA" when you buy. Now also in tablet form. Get the form you prefer. But see that what you get is labeled "Genuine Phillips' Milk of Magnesia."

Bird Was Passenger

Humming Bird Killed When Goose Is Shot In B.C.

A hunter's shot that killed a Canada goose at Williams Lake, B.C., also killed a passenger—a humming bird travelling south in a soft warm berth of feathers of the larger bird. Ornithologists say it is a common practice for humming birds to stow away in this fashion and frequently when the geese are brought down the small creatures dart away from their crashing air-liner.

Premiums amounting to around \$150,000,000 pour into Lloyd's of London in the course of a year.

One hundred and forty by-products are made from livestock.

BABY'S OWN SOAP

Best for You and Baby too

STOP Itching

TORTURE In A Minute

For quick relief from the itching of eczema, blotches, pimples, athlete's foot, scales, rashes and other skin eruptions, apply Dr. D.D. Prescription. Its gentle ointment soothes the irritated skin. Clear, granules and stainless—dries fast. Stops the most intense itching instantly. A 35c trial bottle, at drug stores, proves it—or money back. Ask for D. D. PRESCRIPTION. 28

One Source Of Revenue

British railways carried more than 12,000,000 pigeons during the pigeon-racing season of 1935. Outside of the coterie of pigeon fanciers in Canada, very few people are aware that Canadian railways also make revenue from the sport of pigeon-racing.

Thou Shalt Not Love

— A NOVEL BY —
GEORGIA GRAIG

CHAPTER VIII.—Continued

That was Starr Ellison's deadly fascination—the thousand and one contradictions in her volatile personality that made Michael Fairbourne certain that it had been nothing less than inspiration which had led him to concoct that story about her having Egyptian princess ancestry. He was probably right, without having known it, except by inspiration. If truth were told, she probably had come straight down in a direct line from the sirest of all sirens. It would not have been hard to persuade Michael that Cleopatra herself had sent along her blood—and her allure—through the centuries to the girl-woman who called herself Starr Ellison.

Michael stared down the long room at Lance Marlowe's guests. In the group clustered near the flickering fire on the hearth Starr was almost hidden by the men who surrounded her. Moths, Stephanie called them. And Michael Fairbourne realized suddenly, with an attempt at mental castigation, that he was no better than the rest. He felt an uncontrollable impulse to follow wherever she went. But he had no intention of joining that crowd. He would not. At least he could keep his self-respect to that extent. So he remained on the fringe, a dark and angry moth, watching.

The group parted when someone called for fresh cocktails, and Michael saw Starr. Her exotic beauty was like a flame. She was wearing a startling costume this day—which was Russian in effect. It was all black and scarlet with little bands of fur around the throat. She carried a ridiculous little black muff of the same astrakhan that appeared to serve her for gesturing purposes as well as the fan for a Spanish woman, or any of the well known props. Her dusky cloud of hair, beneath a tiny scarlet hat, fell almost to her shoulders.

No one but Starr Ellison would have dared wear an outfit like that, and she knew it. Her clothes were as breath-taking as her conduct. She long since had got out of hand with Michael who at first had considered it his duty to take her shopping. Starr had ideas of her own, and she had not hesitated to let him know it. He could pay the bill—and did—but hers was the selection.

Her eyes met Michael's, and they held each other's for a strange, long moment. The girl who was the toast of a city, and the man who had made her what she was.

They had not spoken to each other intimately since their flare-up in the ballroom at Pierre's the night of Starr's debut, just about two weeks before. No longer did Michael come to the penthouse apartment and the living room with the mushrabiyyeh windows for consultations or intimate chat. That was all over. Their meetings since the party had been but few, and those had been tinged with brittle sarcasm and deadly barbs of caustic wit. Their defiance against each other left steel daggers always drawn, just beneath the surface. Not even an armed truce.

That one long look from gray eyes to black... Suddenly Starr left her little group of satellites. A freakish impulse led her to Michael. A provocative slant of those deep-fringed eyes swept the tall, stern-faced man. She stood in front of him, her black eyes lifted to his face. She said suddenly:

"You're elected to take me home, Has—Michael!"

A stiffness crept over his big frame.

"May I ask why?" he said, his tone itself challenging.

Starr said insolently:

"Because you're the most miserable-looking man present, and you need thawing out." She spread her hands and laughed. "Besides, everybody else is tight, and some of them might have the idea they could drive."

When he did not reply directly, the imperious "Play-Girl" commanded:

**DO THIS when you
wake up with a
Headache**

**ENJOY RELIEF BEFORE
YOU'VE FINISHED DRESSING**

When you wake up with a headache, do this: Take two quick-acting, quick-dissolving "ASPIRIN" tablets with a little water.

By the time you've finished dressing, nine chances in ten, you'll feel relief coming.

"Aspirin" provides this quick relief because it is rated among the quickest methods for relief science has yet discovered.

"Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

**Demand
and Get—
ASPIRIN**

TRADE-MARK REG.
LOOK FOR THE BAYER CROSS

"Hurry! I've barely enough time to get home and slip into a bath and some sort of a dress for Tod Ranger's party at the Mayfair tonight."

Neither of them had noticed Lance Marlowe saunter up, but the ever-present Lance suggested in his smooth voice:

"Why go home? You can dress here, Starr."

A ripple of amusement greeted his words. Starr did not seem to mind the amusement. She favored Lance with one of her mysterious smiles. It might have meant yes—or no—or perhaps.

Michael quivered suddenly with black rage. He had not missed the obvious. For Starr to change, to dress here, certainly meant that there would be here something more for her to dress in than Lance Marlowe's pajamas. Why? Was it true, then, what people were whispering about her? Why should she have a wardrobe, or any part of it, here? How many times had she stayed here with Lance?

He burst out savagely:

"You can keep your accommodations, Marlowe. I'll take her home."

Lance's thin eyebrows rose. "All in fun, Mike, old chap—Don't get the wind up."

And immediately Michael Fairbourne was conscious of having made a transcendental ass of himself, by being serious when everybody else in the place was ragging. The ripple of amusement grew to a chorus which dinned in his ears. Michael clenched his fists. Starr was laughing more amusedly than any of them.

Michael was glum and silent as they rode down in the elevator. In silence he helped her into his roadster, got in and jammed down the starter. Starr leaned back against the upholstery and snuggled down comfortably in her seat, but her heart was doing a queer little kind of pounding dance. From the corner of her eyes she glanced toward the clean-cut profile of the man beside her, admiring, in spite of all the will power she could bring to bear on that subject, the cut of his lean, strongly molded, set jaw; his firm, tanned features. Why did he have to be so unreasonably attractive?

"Don't be more of an idiot than you can help," she was telling her-

self sternly. "This is a business arrangement, and you certainly ought to know it by now."

But even as she watched every play of his features, saw the keenness of his gray eyes as they were set on the traffic, in her heart was one dull thought. If only things could be different!

Just looking at him gripped a pain around her heart that had never been there once in her life before she had met him. He was so alive and carelessly masterful and—different. In spite of the way he had acted as far as she was concerned, she could not force it from her mind that he was basically finer, more honorable, than any of the rest of that set he played around with. Certainly he was the only one who, so far, had not allowed the "mysterious" "Play-Girl" to twist him around her little finger whenever she chose. And that had been her whole intention.

Michael was still silent—furiously so. He cut his way through the gathering dusk and the maze of traffic with vicious speed.

For a second Starr closed her eyes. Her delicate cameo profile was so white, except for the too-bright coloring of her defiant young mouth.

"And I am making you very rich, Michael-Hassen?"

It was the first time since the night of the debut party that she had mentioned their bargain.

He said stiffly, without moving his gaze from straight ahead:

"In the last few days the sales of my book have jumped amazingly, thanks to you!"

"Thanks to my complete lack of reticence as regards the public airing of my love affairs, you mean!" she corrected him brazenly.

The line of his hard-gripped jaw was white.

"Starr! How can you?"

Her red lips twisted ironically. That certainly was funny, coming from Michael Fairbourne—the man who had been so insistent in saying once: "All I ask is that you keep your name in the headlines—I don't care how."

Well, she had done that for him. The name was becoming as familiar to the reading public as the weather report. In just the short time since she had swept onto the New York horizon like a brilliant meteor, she had blazed her mad, reckless way through highly colorful escapades which could not be ignored—they were news. She had accomplished what she had set out to do, too, as far as she herself was concerned. Her metamorphosis was complete. Starr Ellison was lost—she was all "Play-Girl." It had not taken long, and now she was pulling the strings. Men were her puppets.

Michael was saying roughly:

"What's happened to you, Starr Ellison? You've grown into something shallow, and unreal, like a lot of vivid color painted on glass!"

"Play-Girl" laughed. She echoed: "Vivid color painted on glass! How clever of you, Michael-Hassen. I must remember to tell that to Lance. He'll think it too divine and pass it around as he has passed that so-brilliant remark of mine about my insatiable appetite for bakhshish!"

Suddenly his anger got the better of him. His eyes blazed as his hands tightened on the wheel until the knuckles showed white.

"Lance!" he spat out. "Look here, Starr, I never intended for you to carry out this thing this far. What I may have thought about you at first—well, I've changed my mind. Do you realize what people are hinting about you?"

And then Starr was angry, too. A deep, bitter anger. The supreme arrogance of the man! She flared:

"What right have you to tell me where I shall start, and where I shall leave off? The only interest you can possibly have is in whether I keep my name before the public or not—that was distinctly your bargain! I'm doing that—plenty! I'll carry it all as far as I please! It's none of your business! Yes, I know what people are saying—that I am Lance's mistress!"

She turned to meet the full glare of his gray eyes as the speed of the car slackened momentarily. She drew back indignantly:

"Well, what do you think?"

Michael looked long at the veiled allure of her eyes, at the mocking insolence of her mouth. Then he studied the almost childlike curve of her white throat against the dark

fur, and reflected on the everlasting contradiction of her, as if in very truth she were the siren type of another day which his own press work had made her in the eyes of the public.

He said hoarsely: "I don't know. I don't know what to think about you at all—in any way. I wish to heaven I did!"

All at once a hot flood of words fell on her ears.

"I know one thing about you! You're not the girl I thought you were when I first found you. If I'd had the faintest idea you were not, I'd never have let you in for this thing in a million years. I thought—I thought—well, never mind what. It just wasn't so, and if you'd ever loosen up maybe I'd know just why you were playing La Luna. . . Never mind that, either. What I do mind is now! What's happening to you since you've gone crazy with a little fleeting power and adulation. Don't you ever give a thought to your future? Have you considered what will become of you when all this has worn off?"

"I think you warned me once before that 'Play-Girl' would not last forever," said Starr placidly, and her delicate shoulders shrugged. "I'm not worrying."

"You should be! When 'Play-Girl' is finished, where will your fair-weather friends be then—Lance Marlowe and all the rest? Your very actions now may forever ruin your chance for any real future happiness!"

LOCAL & GENERAL

Mrs. Ranton and Miss Grace spent the week end visiting with relatives and friends in Edmonton.

Mr. Elmer Evans, of Calgary, was a weekend visitor at his parental home.

Alderman A. J. Liesemer, of Calgary, spent the weekend with his parents, Mr. and Mrs. J. E. Liesemer.

The Knox United Church Ladies Aid will hold their Annual Bazaar and Supper in the Leuzler Block on Saturday, Dec. 5th. Supper from 5 to 7 p.m.

Don't forget! Meeting at Goehring's Warehouse 8 o'clock Monday evening, November 30th. Roy E. Smith, I.H.C. Demonstration Farms Lecturer, with moving pictures.

At the first meeting of the Mount Royal College Players, Miss Edith Webster of Westcott, who is a student there, was elected to the office of Councillor. Plays for the regional festival were discussed.

We have just received a new shipment of Christmas Travelling Bags. Call in and look them over at T. E. Scott's.

Roy E. Smith, of the International Harvester Co.'s Demonstration Farms, will deliver an illustrated lecture at Goehring's Warehouse on Monday evening, Nov. 30th at 8 o'clock.

IT'S NONE TOO SOON— to be thinking of Christmas and a gift for old friends! They'll appreciate the thoughtfulness that prompts you to send your photograph. New style mounts in stock—J. SCRUT-TON'S Prices are Moderate!

The Central Alberta Dairy Pool is now operating the new condensery at Red Deer, taking in around 2000 pounds of milk daily. Initial payment for milk will be on the basis of 30c per pound butterfat. Pool trucks pick up milk at any point on the highway between Didsbury and Red Deer. The Pool owns and operates some 30 trucks at their branches, Alix, Red Deer, Bowden and Acme.

A very pleasant evening was spent at the home of Mr. and Mrs. T. A. Murphy last Monday, the occasion being a visit from Mr. Ervin Hunsperger of Corvallis, Oregon, who came to see his mother who makes her home with the Murphy family. The evening was spent playing games, and with musical selections furnished by Clifford Murphy, Arnold Russell and Willie Weidner. There were thirty-five gathered to show appreciation of Mr. Ervin's visit, everyone enjoying it to the fullest extent, as Ervin has been away nine years. A large portion of the evening was spent in visiting and talking over old times, at the close of which a delightful lunch was served.—(Contributed)

Buy your Windbreakers from T. E. Scott—and save money!

Coming Events.

United Church Sunday School Christmas Tree, Monday, Dec. 21st.

C.G.I.T. & Boys' Groups Vesper Service, Tuesday, Dec. 22nd.

Ed. Watkin, of the Builders' Hardware made a business trip to Edmonton on Friday last.

Rev. Geeson went to Donalda, Alberta, this week, where he gave his lecture, "Yellowstone Park."

Mr. M. Weber made a business trip to the capital city last week end.

Miss Snyder and Miss Traub visited friends in Edmonton last week end.

Bob Eubank, Alf. Brusso, and Tom Royds motored to Calgary on Sunday and golfed at the Inglewood links.

Mr. and Mrs. J. H. Hunter, of Drumheller, visited with Mr. and Mrs. G. A. Wallace over the week end.

Mr. and Mrs. J. W. Halton moved on Tuesday to take up residence with Mrs. Halton's parents, Mr. and Mrs. M. B. Clemens.

Len Berscht, Goldie Gabel and Gerald Boetger were this week awarded with the Dominion Marksman's Association bronze badges for target shooting with 22" rifles.

Ralph Young left on Saturday enroute for his old home in England. He will sail on Nov. 29 on the S.S. Montrose. He was accompanied by Jack Clarke as far as Calgary.

Mrs. McCoy, Mrs. Dr. Clarke and Mrs. N. S. Clarke were among those who took advantage of the excursion last week end and visited relatives and friends in Edmonton.

A. Melville Anderson, Optometrist and Sight Specialist, will make his next trip to the Rosebud Hotel on Monday, November 30th. Eyes examined and glasses fitted.

The newly organized Young People's Society of the United Church held a very enjoyable social evening Monday. The main feature was a "scavenger hunt," which created lots of fun for the youngsters.

An Auction Sale of Household Goods will be held at J. W. Halton's Residence on Liesemer St., Saturday December 5th. Anyone having anything to sell may bring it to this sale. Archie Boyce is Auctioneer.

Herman Hawkes, Ed. Cullen and Jimmy Worrall drove to the Cochrane district on Sunday to view the damage done by the fire which occurred last week. Messrs. Cullen and Worrall were former residents in that area.

We have Women's Leather Purses from \$1.50 up. The correct thing for a Christmas present.—T. E. Scott.

A moving picture lecture, "The Stream of Life," will be given in the United Church Monday evening by Rev. C. E. Rogers, of Carstairs, under the auspices of the Young People's Society of the Knox United Church.

The Ladies Aid of the Evangelical Church will hold their Annual Bazaar and Sale of Homecooking, Needlework, Home-Made Candy, Etc., in the Leuzler Block this Saturday. Lunch from 3 to 7 p.m.

Regular Lutheran radio services are being held every Sunday over Station CJRC (Moose Jaw-Regina) 4:30 to 5 p.m. mountain standard time. The correspondence Sunday School is also conducted at the same time.

Mr. Bob McFarlane will leave today (Thursday) with the carload of cattle he has sold to be delivered in Chicago. While there Mr. MacFarlane will attend the International Stock Show. If he finds anything suitable he will probably purchase a highly bred Hereford bull to strengthen his already splendid herd.

Why not buy your next pair of shoes from T. E. Scott? We carry a complete line of Men's Dress and Work Shoes.

Evangelical Church Notes.

The Quarterly Official Board of the Church will meet in the church parlors Friday evening at 8 o'clock. A full attendance is requested.

The services next Sunday will be as follows. In the morning Rev. Krueger will preach. Following this service the Holy Communion will be dispensed. In the evening Rev. A. Traub, of the Mt. View Bible School, will preach the Word.
